Jurong Port Tank Terminals

Client Jurong Port Tank Terminals Pte Ltd
Consultant Surbana Jurong Private Limited
Main Contractor Antara Koh Pte Ltd
Contract Period 15 May 2017 to 17 March 2019

Jurong Port Tank Terminals

The Main Trestle is 925 meters long, connecting mainland Singapore and Jurong Island. The pipe rack is installed in the Trestle and carries many oil pipelines and utilities pipelines and also a driveway for 5 tons forklift and pedestrian passage. An 80m long removable span is designed and built in the Trestle, in emergency situation, it can be removed rapidly. This will allow ships from Jurong Port to sail out into the Western Fairway.

10,000 DWT/180,000 DWT Berth connected to Main Trestle by an Elevated Trestle

1,000 DWT/20,000 DWT Berth. Both berths connected to Main Trestle by an Elevated Trestle

Upgraded Berth J18 and J19 receiving first vessel on 17th March 2019
